

Cabin Air Filter Replacement

Taco Bill

11/25/2008

This install was performed on Leo's 2006 GT.

I believe the manual calls for this filter to be replaced at 30k miles.

Cost of this filter can range from \$10-20 depending where you purchase it from.

Install time for this filter replacement will be around 5 minutes.

New filter

General location of filter, behind battery.

Turn key to 'ON' position and cycle windshield wipers to the up position and turn key off.

If you have aftermarket hood struts, you may need to disconnect the lower strut mount.
