

Auto-Dimming Interior Mirror

Special Tool(s)

	Mirror Remover 501-D118
ST2833-A	

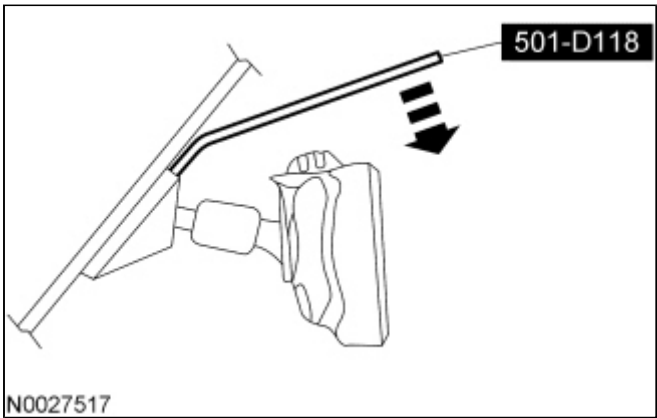

Item	Part Number	Description
1	—	Interior mirror electrical connector (part of 14A005)
2	17700	Interior mirror

Removal

1. If equipped, remove the wire cover.
2. Disconnect the electrical connector.
3. **NOTE:** High level mirror shown, others similar.

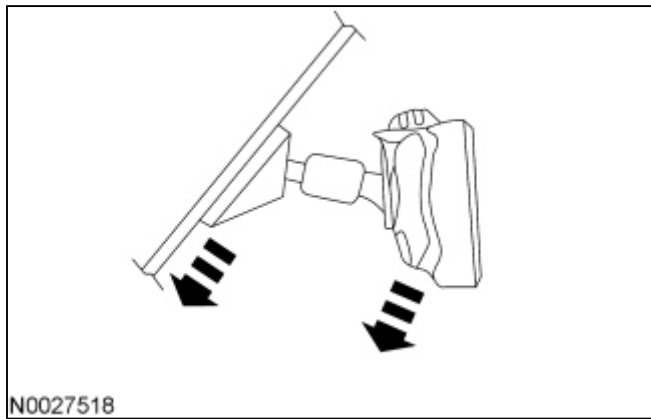

Insert the Mirror Remover between the mirror mount and windshield bracket from the top.

4. Release the mirror mount from the windshield bracket by pulling the Mirror Remover and mirror down and away from the windshield.

Installation

1. Slide the mirror mount over the windshield bracket from the top and adjust the mirror to the up position.

2. Quickly press the mirror assembly downward along the windshield until a click is felt. The click indicates the base is engaged to the windshield bracket.
 3. Connect the electrical connector and check the compass zone and calibration. For additional information, refer to [Section 419-11](#).
