

N0012324

Typical Truck Vehicle Certification Label

Vehicle Certification Label Location

Typical location of the vehicle certification label is on the LH door or door post pillar.

Engine Calibration Code

2009 Model Year Example

Engine Calibration Code: 9B7 1 4D 0 A 00	
9	MODEL YEAR — Model year in which the calibration was first introduced. 9 equals 2009
B7	VEHICLE CODE — Vehicle line description. B7 equals Expedition
1	TRANSMISSION CODE — Transmission description. 1 equals automatic, 2 equals manual
4D	UNIQUE CALIBRATION — Identifications are assigned to cover similar vehicles to differentiate between tires, drive configurations, final drive ratios and other calibration-significant factors.
0	FLEET CODE — Describes which fleet the vehicle belongs to. 0 equals Certification (U.S. 4K)
A	CERTIFICATION REGION — Lead region code where multiple regions are included in one calibration. A equals U.S. Federal
00	REVISION LEVEL — Revision level of the calibration. 00 equals Job 1 production or initial calibration. (Not printed on vehicle certification label)
